

working together...

Jean Morgan
Chief Executive
South Northamptonshire Council

working together...

- priority across the District is to maintain the sense of place – **preserving what is special**
- we cannot do this on our own as a District Council – essential we work with local Town Councils, Parish Councils and the County Council

working together...

- focus of much of our work together is the **environment**
- planning issues – workshops to help Town and Parish Councils to frame their comments around **planning considerations**
- local housing needs assessments

working together...

- **not afraid to disagree** – this is a sign of a healthy partnership
- we work in partnership where it **adds value**
- localism agenda – we will be working with councils plus a wide range of other groups

working together...

.....works!
